WORK EXPERIENCE

Web Development   **Jan. 2021– Present**
Freelance Full-Stack Web Developer   *Laramie, WY*

- As the solo developer, I handle the designing, programming, analytics and maintaining of websites for clients using best practice for accessibility, SEO, designing, and security. Below are the companies I've worked with:
    - Mom's Club - https://www.momclubwyo.org/
        - Implemented a financial portal, directly impacting the donation based non-profit's financial support.
        - Increased the non-profits visibility which positively impacted group enrollment and online engagement.
        - Implemented the front-end using ReactJs and the back-end using NodeJs, ExpressJs, and PostgreSQL for the client to post scheduled events
    - Charleston Assisted Living - https://www.charlestonal.com/
        - 70% increase in residential inquiries and 100% residential occupation within the first 3 months.
- Proficient with HTML, SASS, Javascript, REST APIs, NodeJs
    - Experience with C#, Java, C, SQL, PostgreSQL, ReactJs, Haskell
- Tools experience: Affinity Photo, Figma, GIMP, Inkscape, Vim, VSCode, Browser Dev Tools, Linux, Windows
